Bitcoin Education Partnership

cy·pher /ˈsɪfər/
noun: a secret or
disguised way of
writing; a code.

ABOUT THE INSTITUTE

Cypher Institute was founded at block height 670,660 by D++, a pseudonymous bitcoin educator and coding professor laser-focused on delivering clear, easy-to-understand translations of highly complex topics.

cy·pher /'sɪfər/
noun: a secret or
disguised way of
writing; a code.

WHAT THEY'RE SAYING

Check out our [Introduction to Bitcoin Mining](#) video, and hear what the community has to say:

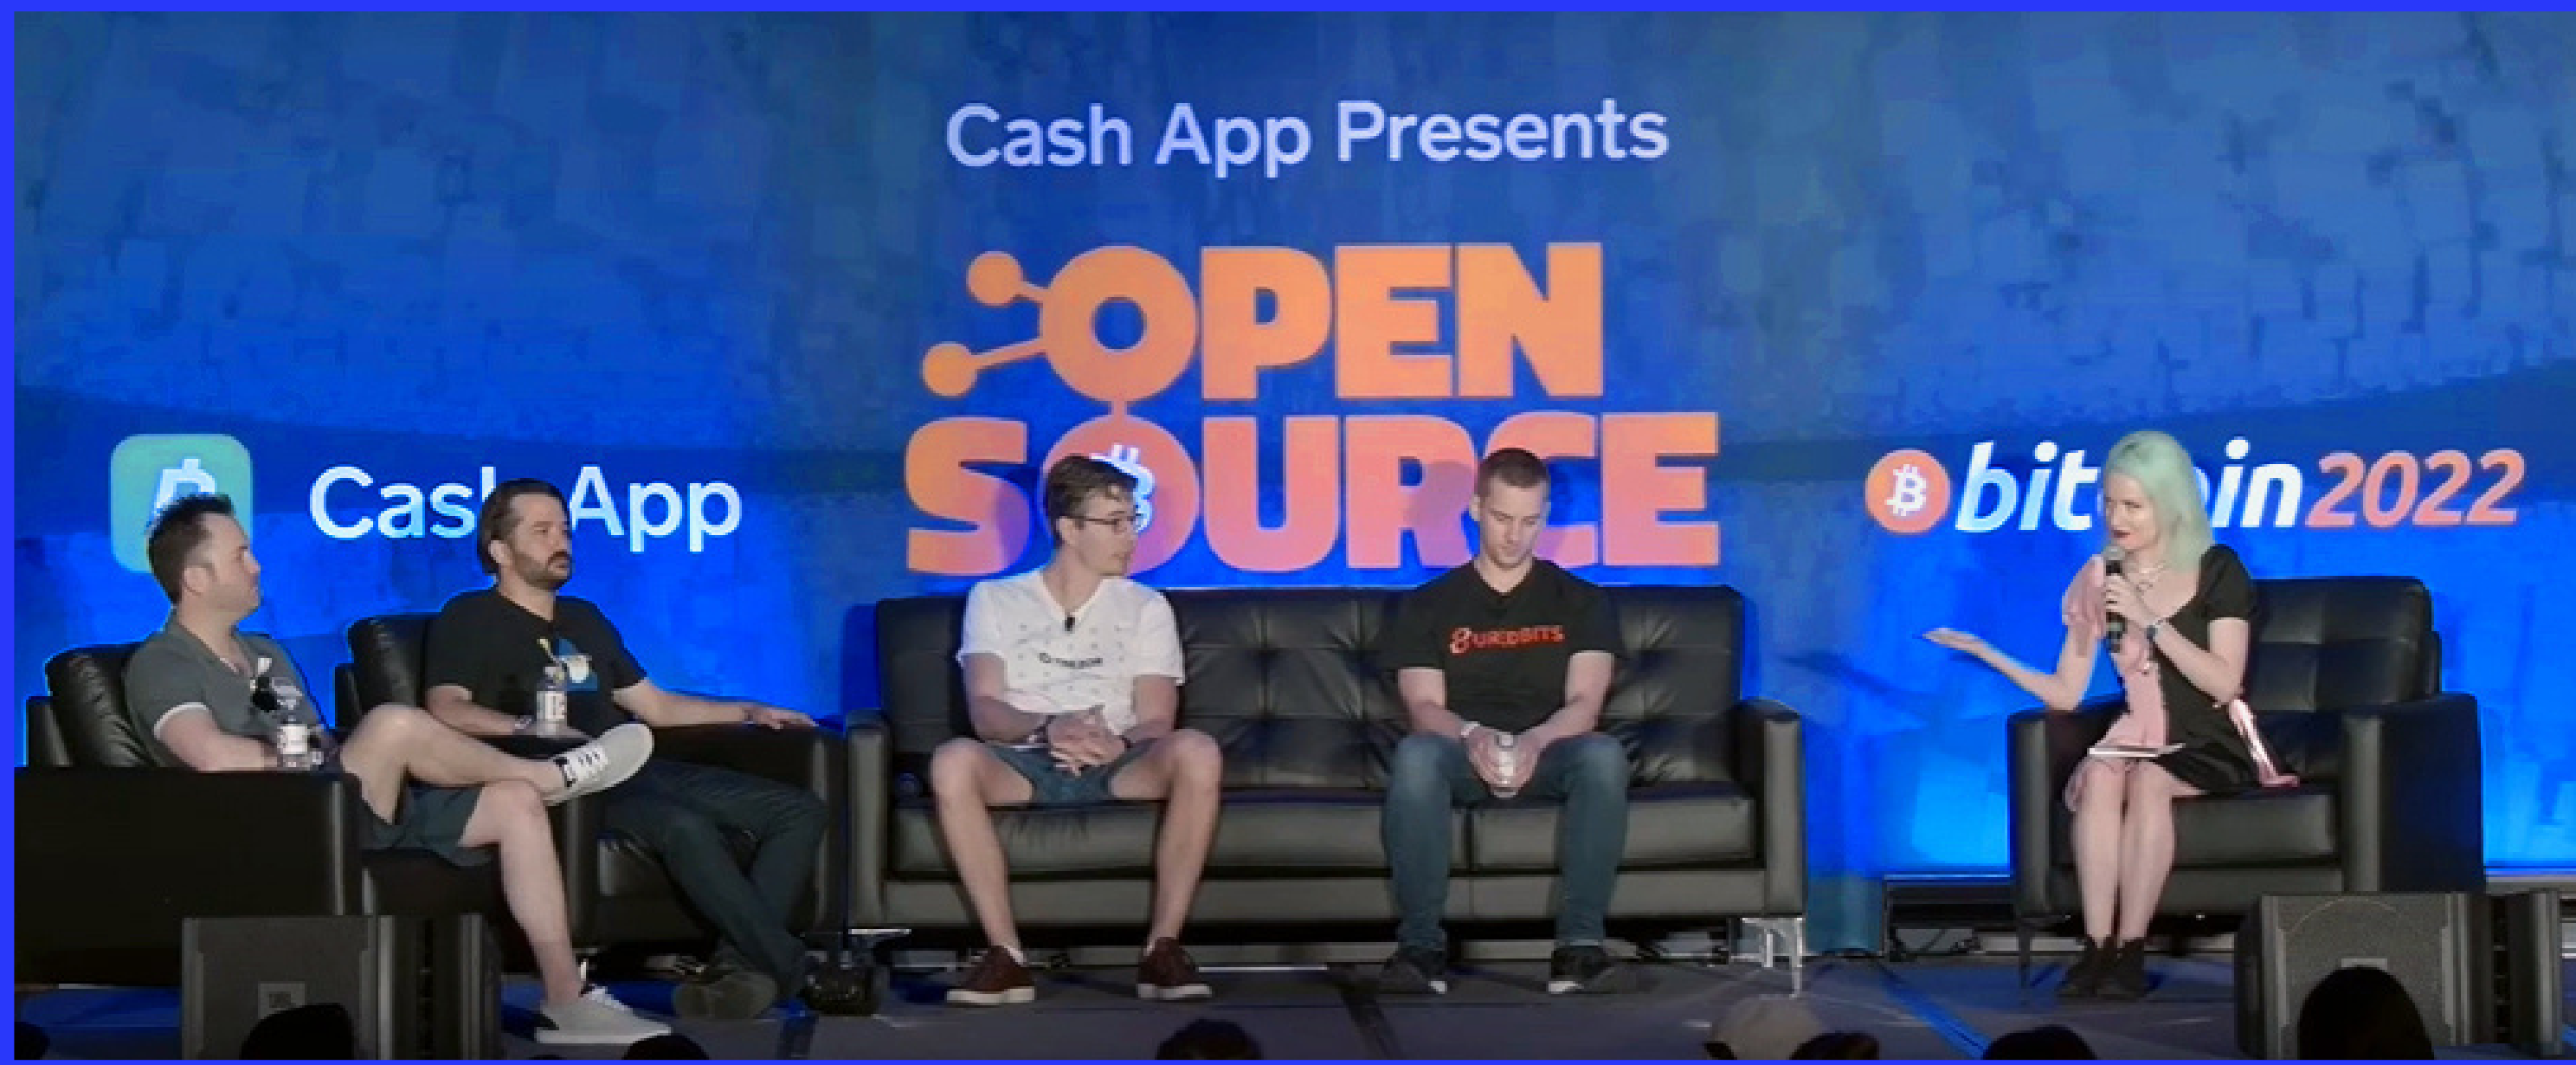

"D++'s talk on how bitcoin mining works was fantastic. It was a masterclass in explaining something simply so that anyone can understand it and how to keep an audience engaged. You should watch it if you want to understand how mining works."

- GANDALF

Slush Pool by Braiins

The 1st mining pool since 2010
